

Access

I am student of Access
And it's my story of success
Before joining Access I was limited to my own world
But Access gave me friends all over the world
People used to laugh at my deeds and made me sad
But Access appreciated my deeds and made me glad
I enjoyed and did a lot of fun
Access give me light of knowledge like a sun
Access came in my life like a rain
And healed my all wound and pain
You can achieve your goal by joining Access
I can say that Access is way to success
