

Access Poetry month

Access's become part of my life.  
It made my dreams come true, alive.  
I like to see the kids inspired,  
And know that they are never tired.  
American English they study,  
Values and culture – country study.  
They read, listen, write and speak,  
Become stronger those who are weak.  
They become active, friendly and dear,  
And learn to be a volunteer,  
To develop leadership skills,  
And respect others' thrills.  
Access makes students bright,  
And their worldview wide.  
They learn to work in teams  
And be supportive teens.  
Programmers become close friends,  
Their friendship never ends.  
Together they pass exams,  
Together they live in camps.  
It is incredible to learn from them.  
It is such fun to be with them.  
We have become Access community.  
Thanks, US Embassy, for opportunity.
