

Child Labor

My young child! Don't cry
You can do, if you try
My young child! It will be alright
You tears will dry and you will get your right
No one can ever explain you "why?"
You have to fund the answer with sigh
Life is your friend, have faith in it
And then you will be fit
My young child! Just hold on
Soon you will see a dawn
It can take you anywhere you want
My young child! Don't cry
