

Dear Earth

Dear Earth,
We the Star United Net,
We set the Sun in a high place,
To cover your whole space
We sent our rays
To make bright days.
To peace we kept our trace
Yet to fighting you race
And problems you face
We'll be on a strike
Led by the moon
Through an eclipse that's coming soon.
Give a nation birth
Or our SUN will set forever and disperse.

Chahira from Access Tunisia
