

Dégage to the Garbage

The earth should be clean
Let's help keep it green

Let's help the government protect the environment

Think about it please
Would you come with us and plant some trees
And even some flowers to help out the bees
Even the butterflies and the bird will sing
When the green ozone become king

If I was the mayor I will save the ozone layer
Like a hero football player
Who Saves the day With an amazing play

Help us find solution
So we can put an end to this pollution

Let's save the fish
By eliminating the rubbish

You don't need cash
To pick up the trash
You can do it in a flash

We say "dégage " To the garbage

And while we are at it, let's get rid of smoking
We are all really tired of all this choking
Let's let every day be an earth day
Not just once a year like your birthday
