

For the poem, “My Dream”

If I were a flower,
I'm in your sight
You will feel light and delight
And I will clear all your plight.
The fragrance I emit;
If you happen to breathe it,
You will feel just like eating the nectar
Which can make your feeling fresher.
We, young people,
Are just like flowers in the garden.
We have a mission called
Creating a better world!
I'll surely take part
In the nation building task,
A must I must do.
This is my humble desire
Which I will carry out in the near future
