

I'm waiting for nothing.
In the end, all is disappear.
You didnt come back.
The truth is no longer girded.
My sight full of illusory.
That wishful always relentless calling you out.
Continue to get you out..
My twilight is so sad.
You quickly passed.
I hope, that differences unite us again.
Tight, like magnet.
Gravely... i shouldnt be like this. But, my soul has been entangled.
My soul has burned.
Smolder, full of pain.
so bright like sunscreen.
I didnt have tears anymore.
Let my love charred.
But, i've been fallen.
How else? Please, take me out from this yearning!

Abella Novalia
