

Let's go back to our roots

Let's go back to our roots  
What happened to respecting others  
What happened to respecting ourselves?  
Let's not try to impress others  
Let's just be ourselves  
We can start by respecting the adults.  
By respecting our cultures  
Let's look upon our ancestors  
And love, care and respect of another  
And also this beautiful country.
