

Listen to a Citizen!

Blah... Blah... Blah...

Hush and hold still!

You sent me through the mill

You made my head a landfill

You're only casting a chill

That chains both my soul and will

You've made me constantly ill

You're no longer a bitter pill

It seems you don't know the drill

Leave the stage to those who fit the bill

As you're already over the hill

Chaouki from Tunisia
