

Love

Love is a feeling that you feel
 Inside your heart
Not what you will say you feel
 Don't tell me you love me
While you know that you are just speaking
 To make me happy
 I am not happy at all
Because you don't remember my name
You always call me by pet names like puppies
 And many more
You don't understand the word love
Because you don't even know what love means
Even if it heats you on your forehead
