Me or Nothing

I wish I can walk on the moon
I wish I become wealthy, famous and graduate very soon
I'd like to get everything for free
And have a room with money is up to the knee
I want to own a brand new house and a big car, new piano and the latest guitar
Live happily, just like a star
I dream for being the topic of the media and the news
I'd love to be the example all the fans would choose
I will lead this world and take it all; I will be out of control
I got a genius brain with a particular sign; I can even better than Einstein.
