

My future

Future is something  
That we can explain  
Use our imagination  
And take it to plan  
Make our target  
Go forward to it  
Take all information  
That makes us profit  
In future, I hope  
All of us will be friends  
Who will help in the moment  
When we will need them  
We reach our goals and  
We meet our love  
And the best thing that happens  
Is our family life  
I believe everything that I've written  
Will come true  
And will give us a lot of happiness too  
Future is good but we live only now  
I love this great world  
That makes me smile
