

My Hopes and Dreams

I hope to live my dreams
I hope to be a different parson
in a different world
I hope to change the world the way it is
and turn it into a dream world
where people can dream to live their lives
the way they want
My dreams is to turn my life different
and never look back
my dreams is to make people's lives
turn into bright future and I can
If I tell myself, I can do anything!
