

Nation

My nation will get its right  
If we will not fight  
If you know your nation  
You can make it a heaven  
Your one wrong step can destroy the nation  
Your one right step can make the nation  
We can change our nation  
With a new dimension  
If we make our nation happy  
We can make the whole world happy  
My nation will get its right  
If we will not fight
