

No Ways

1

I'm not safe
Nowhere to go
I'm almost dead
I think so

2

Spoiled of food
But, it's not even shown
So, *nothing to eat*
*Nowhere to sit down*¹

3

Nothing more to say
A lot I've said
And nothing to pay
Everything is paid

4

No half to share
No partner to care
And no friend to trust on
Heart is full of fear

5

No ways to rescue
And no ways to run
When a friend comes
With its gun

6

No works to be done
But, still, I'm doing
America, I've given you all
*And now I'm nothing*²

7

No eyes and no boots
Even, not any line
After a waiting
I'm not getting any sign

8

No god to protect me
And no god to save
When human is the god
In every cave

9

No one is relative
No one to depend
Nothing to get back
What I spend

10

No profit to have
Nothing to get alack
What I did it's gone
No way to get back

11

No tricks to win others
No process to be good to all
When I say the truth
I'm out of the hall

12

No hope to fulfill
No wish to say
Now, I'm upset
Thinking, what I may
