

Oh! Education, my light

Oh! Education, my light,
You the eye opener of my life
You education are the light of my mind
My key to open treasures
Without you I can't open doors to my future
You fine tuned my tongue.

Now I can read
Write my name
Arrange numbers and alphabet
Because of you Education
It wasn't as easy as 1 2 3
Or as simple as A B C

All the Scientists, doctors, lawyers and presidents
Respect you, Education
My world is improving because of you
Oh! Education, My mentor, my sunshine
My career is already brightened
Because of you, Education.
