

Global Issues: Local Teaching

Clark Erwin-Billones

We Teach Because...

- Many of us are interested in improving the world
- We care about the future of our earth, country, and community
- We want people (students) to be educated, make smart decisions, and live productive and satisfying lives
- Service-learning is a great way to combine these points

Vocabulary Related to Service-Learning

- **Volunteering**

Unpaid work, usually helping because you care
(reading to students, taking care of animals)

- **Community Service**

Improving the area/city you live in
(picking up trash, planting trees)

- **Service-Learning**

Direct volunteer service (physical work) combined with learning
and reflection (thinking about what you learned)

Global Issues: Local Teaching

- Service-learning is a way to bring global issues into education
- Students learn about real problems and are part of the solution
- Teaching and learning can become 'hands-on' and active, which engages students in the subject and in global issues

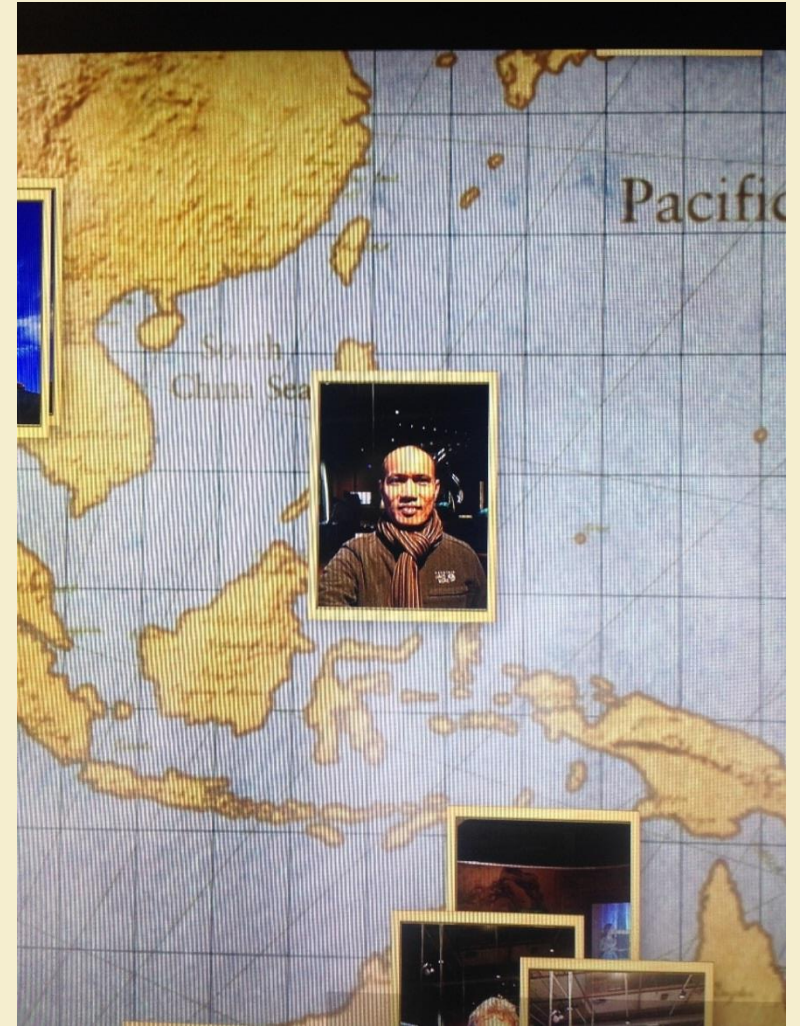

Photo Credit: Clark Erwin-Billones

Volunteer Views and Data

- U.S. Americans like to volunteer
- Countries and cultures have different ideas and beliefs about volunteering
- My experience and ideas come from my U.S. view

According to the U.S. Bureau of Labor Statistics...

- 25% of U.S. Americans volunteered in 2015 (the last year reported) or about 63 million people
- Teenagers (16-19 years old) had one of the highest volunteer rates in the U.S. (26.4%) <https://www.bls.gov/news.release/volun.nr0.htm>

This Hour, We Will Discuss...

Global Issues (whole world)...

- That affect your community
- To bring into the classroom
- That are interesting to students

Local Teaching (your class/community)...

- That uses English communication
- That involves a service-learning project
- That uses student-centered projects

Specific Goals for this Hour

- To be able to learn about what service-learning is and see examples at different educational levels
- To learn about the main steps to build in service-learning and/or student-centered activities into your classroom/club
- To be able to understand how service-learning activities can help students learn English

Language Goals

- Increase students' use of English in communicative discussions around global issues
- Improve students' comprehension in using English to give directions, follow instructions, and ask and answer questions around specific tasks
- Encourage students to express their feelings and opinions while using English

Service-Learning Basics

Students should...

1. Find a project to participate in
2. **Learn** about the issue
(articles, videos, presentation, speakers)
3. Participate in service project (most were 2-3 hours total)
4. **Reflect** on what they did and **evaluate** their work and opinions

Service-Learning Examples

Primary – Secondary
and
University – Adult

Primary/Secondary Example: Trash Cleanup

Photo by: kennethkonica, from Photopin, February 2017.
<http://www.flickr.com/photos/38912465@N00/33137754445>

Students **learn** about:

- Plants and animals in a local nature area
- Pollution and garbage globally and/or locally
- Why you shouldn't throw trash on the ground

Primary/Secondary Example: Trash Cleanup

Photo by: NASA Kennedy, from Photopin, April 2017.
<http://www.flickr.com/photos/108488366@N07/33908440461>

Earth Day is April 22

<http://www.earthday.org/>

- **Service:** Students go to a nature area to pick up trash
- **Duration:** 1-2 hours service plus transportation time

Primary/Secondary Example: Trash Cleanup

World Bank Photo Collection, from Photopin, January 2008.
<http://www.flickr.com/photos/10816734@N03/2183616946>

Evaluate by...

- Counting how many pieces of trash they pick up, weighing it, finding the heaviest piece, adding it together (math)
- Guessing/hypothesizing why trash is in nature (science)
- Creating solutions for this problem (language arts)

Primary/Secondary Example: Trash Cleanup

Photo by: World Bank Photo Collection, January 2008.
<http://www.flickr.com/photos/10816734@N03/2183616946>

Reflect by:

- Thinking about the importance of the project
- Sharing what they learned
- Discussing how they felt
- Giving their opinions

Where to Start?: Think About...

- Big events or projects that happen once a year that relate to your curriculum
- A local problem that students could create a solution for
- A global problem that students can create local awareness of

“Brain” by TZA, from PhotosForClass.com, January 2009.

Service-Learning with University Students

What I Did: Service-Learning Component

I made the service-learning project **student-centered**

Students participated in:

- Planning (researching, presentations)
- Decision-making (which project, when?)
- Activities (learning and service)
- Assessments (evaluations and reflections)

Student-Centered Service-Learning

September	October	November	December	January
Form groups	Choose a project	Give presentation Evaluate peer presentations	Learn more about the project/topic	Service-learning reflection
Research ideas, NGOs, events	Meet and interview organization or staff	Vote on project Coordinate logistics	Service-learning project	Class reflection

Language Learning Activities...

September	October	November	December	January
Learn vocabulary Comprehension activities	Read an article and present it to a group	Give presentation on a service proposal Evaluate peers	Watch a video and discuss a global topic	Service-learning reflection write-up
Guest speaker visit Letter writing	Interview an expert and share with the class	Vote on project Plan logistics in groups	Service-learning Project	Class reflection

Student Proposals

Photo Credit: Clark Erwin-Billones

- Share the students' proposals
- Think about what parts of this project may work in your classroom

Student Project Proposals

- Volunteering for a 10K race that raises money for suicide prevention
- Volunteering to cook and spend time with people at a homeless shelter
- Starting a school club which promotes education and activities to combat a global issue (climate change, child nutrition)
- Collecting art supplies to give to children and decorating the suitcase we send them in
- Participating in an environmental project with children at a local nature area

Evaluating: Proposals and Presentations

- All requirements included (rubric)
- Presentation skills (body language)
- Project interest, time required
- Students voted on which project the class would participate in

Photo Credit: Clark Erwin-Billones

The Students Voted For...

The Winner:

- Collecting art supplies for children!

Image Credit: COW

The Project...

1. We read information about where the supplies were going
2. We collected supplies from family, friends, schools, etc.
3. We met and decorated 2 suitcases that would travel with a student group
4. We stuffed the suitcases with art supplies and gave them to the travelers
5. Students wrote a reflection/evaluation paper about the course goals (1 page) and this project (1 page)

Photo Credit: Color Our World

**The End
Result:**
Young
students
creating art
work
with new
art supplies

Color
Our
World

art that **mooves**

Spring 2014 Service Learning Project for IU 180: Globalization and My University

Evaluation and Reflection

The students were required to write about:

- Their experiences
 - Their thoughts and feelings
 - The project requirements
 - The best and worst
 - Something they learned
- What do you think about the COW project?
 - Did it involve education, direct service, and reflection?

Motivation and Inspiration

Service-Learning ?

Why Promote Service-Learning #1

- Helps to improve the world
- Students learn about issues that affect them (reading articles, watching videos, doing service)
- Thinking, writing, discussing ideas and solutions

Photo Credits: Clark Erwin-Billones

Why Promote Service-Learning #2

- Builds relationships
 - ...Among students
 - ...With the community
 - ...With organizations
 - ...With yourself
- Encourages English communication during the project with questions, directions, and conversations
- Students can write down new words and find definitions
- Students can talk with the community members or organization staff to learn something new

Photo Credit: Clark Erwin-Billones

Why Promote Service-Learning #3

- Develops civic responsibility (how to be a good citizen) by
 - ...Teaching that everyone can make a difference
 - ...Gaining a sense of accomplishment by doing work and seeing results
- Students can discuss or write up solutions to the problems they learn about
- They can write a poem, song, or rap
- They can write an article about the issue and share it

Why Promote Service-Learning #4

- Engages students by
 - ... Getting students moving and doing (kinesthetic learning)
 - ...Doing real work with real consequences (good ones)
 - ...Building confidence in different ways than in the classroom through
 - problem solving (moving things)
 - using different strengths/skill sets
 - developing leadership qualities

“Students working in nursery” by treesftf, from PhotosForClass.com, March 2009.
<https://www.flickr.com/photos/plant-trees/3343453750/>

Why Promote Service-Learning #5

- Participants develop critical thinking skills by
 - ...Evaluating the criteria that makes a good service project
 - ...Evaluating the project parts like the organization, the timing, etc.
 - ...Reflecting on their service and their experiences
 - ...Reflecting on what they learned
- Students can complete writing, journal entries, discussions, formal assessments

EVALUATION

Developing opinions, judgements, or decisions

Do you agree that ____? Explain.

What do you think about ____?

What is most important?

Prioritize ____ according to ____?

How would you decide about ____?

What criteria would you use to assess ____?

"Evaluation" by Enokson, from PhotosForClass.com, September 2011.
<https://www.flickr.com/photos/vblibrary/6198416827/>

Design a Service-Learning Project...

That fits your needs and your students' needs!

- Try some student-centered activities
- Know what your students can do and what is possible (primary vs. secondary vs. university)
- Ask your students what they are interested in
- Listen to your students opinions and ideas

How to Get Started with Service-Learning

Think about different ideas about bringing service-learning into your classroom

- Connect to the curriculum
- Project organizer (you, students, organization)

“PAN 2001-010-S20” by Peace Corps, from
PhotosForClass.com, May 2010.
<https://www.flickr.com/photos/peacecorps/4578536375/>

Where to Start: Origins of Service

- Religious group
- Fundraising group
- Schools
- Medical organization
- Community organization
- Social advocates/NGOs
(environment, animals,
social issues)

How to Plan a Service-Learning Project

"Service Project" by wittco.gmbh, from PhotosForClass.com, February 2014.

<https://www.flickr.com/photos/wittcogmbh/12707174404>

Think about the type of project work

- Skills or training needed
- Clothing or equipment
- Indoor or outdoor temperature
- Water and food available

Brainstorm a Service-Learning Project

- Global problems or issues that you teach
- Curriculum topics that could involve a service-learning project
- Focus on creating ideas (brainstorming)
- Think for 2 minutes
- Don't worry if these ideas don't work
- There are no wrong answers in brainstorming!

Consider These:

- Social Activities
- Fun Factor
- Student Interests
- Community Needs
- Curriculum Requirements

List Your Ideas

On a piece of paper write down 3-5 issues or volunteer groups you might partner with:

- 1.
- 2.
- 3.
- 4.
- 5.

Photo credit: CC0 Public Domain

Global Activities in Your Classroom/Club

Choose a language learning activity that:

- Relates to a global issue
- Uses communicative language practice

Take a minute or two to think of an activity and then you can share it.

Service-Learning Extension Ideas

- Explore a nature area for insects and plants near the school
- Learn about the plants and insects found
- Sketch pictures of plants and insects
- Research what was found
- Back in class, students describe their drawings to the class along with information about what they learned from their research

Global/Local Issue Project Ideas

- Identify global/local issues
- Poll community members (classmates) about the biggest issues
- Interview family, friends, classmates about their opinions

Air Pollution	Car Accidents	Plastics in Sea
Marta	Thomas	Karina
Pierre	Luda	Maria

- Record data on a graph
- Report on data (how many people voted for each issue)
- Share opinions and present their data and ideas to the class

A Guest Speaker Visits

- A guest speaker comes in to present information on an issue
- Ask questions in English, if possible
- Research solutions and discuss in class
- Write thank you letters to the speaker
- Students peer correct letters editing for spelling

Controversial Issue Project Ideas

- Learn about journalism writing and bias/neutrality
- Research an issue
- Watch a news story online about the issue
- Students get into groups of...agree, disagree, neutral or ???
- Write an article in groups that reflects their point of view
- Read it to the class
- Evaluate if they were neutral or biased

Global Issue Related Project Ideas

- Learn about a health or safety issue (article and facts about malaria)
- Work in pairs to create a campaign to educate the public on the issue
- Design materials including a slogan, song, and mini-poster with 3 facts about malaria
- Present it to the class

Tips, Techniques, and Reflection...

Let's look closer at some ideas to make things easier

I Am Not an Expert, But I Know Experts

Ask guest speakers to join the class!

- Talk about a global/local issue
- Share experiences, stories, photos, videos, or realia (real objects from their work)
- Leave time for discussion student questions

“Local Books for Local Audiences” by USAID Africa, from PhotosForClass.com, September 2013.
<https://www.flickr.com/photos/usaid africa/9733834685/>

Do You Know an Expert?

Do you know someone who is a...

- Teacher or staff member from school
- Friend, relative, or their friend
- Someone from non-government organization (NGO)
(university, doctor, journalist, writer, embassy staff)

"Chitral International Workshop" by groundreporter,
PhotosForClass.com, May 2014.
<https://www.flickr.com/photos/16901703@N06/14249551342/>

More Project Planning Logistics

Keep In Mind

- Permission from the school and parents (Do you need to talk to someone first?)
- Transportation (How will you get there?)
- Expenses (trash bags, meals)

Photo Credit: Clark Erwin-Billones

Student-Centered Projects

"Relationships" by U.S. Fish and Wildlife Service, from PhotosForClass.com, September 2011.
<http://www.flickr.com/photos/usfwsmidwest/6214054247>

Encouraging Student Success

- Plan early to allow for delays, other issues
- Focus on learning lessons and problem-solving. No project is perfect!
- Have fun! Students should enjoy learning. And teachers should, too!

Final Reflection Questions For You

- Did you learn something new?
- Are you inspired to do a service-learning project?
- Could you use some of these ideas in your class/club?

Thank You for Participating!

Check Out the Follow Up
Discussion on the Ning!

Ask questions or get more
information!
