

The soul oxygen

Being free to think, to dream when hovering

This is the true happiness for all writers,

Being free to play, to run or dance

This is, oh yes, the true joy of all kids

Being free to choose one's religion

This is the freedom of mind

Being free to live one's passion

This is what makes the heart in full emotion

Always be free but never forget dignity, sincerity and honesty

Manel from Access Tunisia
