

The Stars and the Moon

The stars are bright  
The moon is shiny  
I see the stars and moon  
Shining all above the sky  
The sky is beautiful and clear

I wish I could fly  
So I could reach the sky  
I wish I could touch the sky  
Oh, the sky is shining  
When is the sky coming  
When am I going to touch the stars and moon
