

The Web

The web, a free-association
A window for possibilities
A green path of shift and access
A web page
A radio cluster trial
A vision to access mass communications
Weaving cables
With control like a spider
As a flash of meanings
With no exact meanings
A blue fish of solar energy
In a fisherman's net
The web a free-association
A window for possibilities
A green path of shifts and access
A window, a nucleus.

Berenice from Mexico
