

What you see is what you get

"What you see is what you get
people trapped on the net
getting money as a debt
feeling sorry and regret
they're right and life's low
story starting time ago
like filming a movie show
white pigeon seeming a crow
fighting over humans rights
being chosen as good knights
knowing who's starting fights
giving us some nasty bites
i don't know even what to say
hurting like a tooth decay
get your cards and go replay
we have nothing just to pray "
