

## Game 5: Which One Is Different? Why?

*Which One Is Different? Why?* gives students an opportunity to take a look at a group of words and decide why one word doesn't fit with the others. They will be talking about similarities and differences, so the teacher might want to introduce the game with a review of expressions of similarity and difference, such as "different from," "similar to," or "the same as," and demonstrate how these expressions are used.

### Instructions

1. Have students (the players) sit in groups of 3–4.
2. Determine who goes first and progress clockwise or counter-clockwise.
3. Each player rolls the dice in turn.
4. On their turns, the players move their game pieces along the path according to the number of spaces indicated by the dice.
5. On the space where they land, the players read the four words aloud.
6. The players say which word does not fit into the set logically and give a reason why the word is different. It is important to state the reason because there is no one correct answer.
7. The game continues until one or all players reach the 'Finish' space.

### “Player Talk” in *Which One Is Different? Why?*

#### Cue

Intelligent, handsome, funny, shy

The U.S.A., England, France, Australia

#### “Player Talk”

I think handsome is different. It is the only one that describes someone's appearance. The other three describe someone's personality.

France is different because they speak French. The U.S.A., England, and Australia are English-speaking countries.
